PROFILE SUMMARY

I'm a dedicated front-end developer with strong knowledge in building dynamic, responsive web applications using React.js. I specialize in creating modular components, managing state with React hooks, and integrating APIs for scalable solutions. With a solid grasp of JavaScript, HTML, and CSS, I focus on modern web standards, performance optimization, and cross-browser compatibility. I'm passionate about writing clean, maintainable code and enhancing performance and user experience.

PROJECT

React-Quiz-Application: Developed a responsive web application using React.js and plain JavaScript, featuring React-based questions to demonstrate core concepts such as reusable components, event handling, React hooks, and API integration. It showcased modern web development practices and interactivity through clean design and dynamic functionality.

➢   React-Quiz Project.

TECHNICAL SKILLS

- React JS
- HTML
- CSS
- JavaScript
- Next JS
- Redux
- Git & GitHub
- Responsive Web Design
